

Memorandum

To: Practitioners and Office Managers
From: Sherri Tarpchinoff Bennett, Director Network Operations
Re: **New Reporting Requirements by DHCS**
Date: April 15, 2014

The California Department of Health Care Services (DHCS) has imposed new provider network reporting requirements on Gold Coast Health Plan (GCHP). GCHP is now required to collect additional data from our provider network.

GCHP has created an online provider attestation form that will allow for the timely acquisition and gathering of information needed to meet these new requirements. The form – located on the provider page of the GCHP website – is designed to collect the newly required data, update your existing data and must be completed by May 1, 2014.

[Click here](#) to access the attestation form.

Email us at providerrelations@goldchp.org if you have questions or if we can be of any further assistance. Thank you for your cooperation in this matter.
